Property Sold.

The property of SAMUEL MILLER, deceased, 42 acres, in Mount Pleasant township, about one mile from the Railroad, was sold on Saturday week, at public sale, at \$74.02 per acre. Mr. JOHN HANES purchased. The one-half in hand, and the residue in two equal annual payments, with interest.

Mr. SAMUEL HILDT, of same township, also about one mile from the Railroad, sold his farm lately, 71 acres, for \$800 per acre. One half in hand, and the balance in four equal annual installments, without interest. P. H. HILDT, buyer.

Mr. PETER HAVENSTOCK, in the same neighborhood, about 1 mile from the Railroad, lately sold his farm, 48 acres, for \$1800—ten hundred in hand, and the balance in four equal annual payments, without interest. JOHN HAVENSTOCK, purchaser.

A Cunning Rogue.

A few weeks ago a young man, pretending to be deaf and dumb, traversed the neighborhood between New Chester and New Oxford, asking charity by means of a painted paper; and, in the absence of the family, some of whom were a short distance from the house at the time, entered the dwelling of JACOB MILLER, Esq., opened a bureau and took \$27 out of a pocket book, and a silver watch which was hanging in the room, and made his escape. The villain has not been heard of since.—*Compiler.*

Maryland Election.

The general election for Governor, members of Congress, and Legislature, takes place on Wednesday next. Great apprehensions are entertained that there will be a fearful riot in Baltimore on the occasion. The Governor of Maryland has issued his proclamation ordering out nearly the entire military command of the city to preserve order. The Mayor of the city has refused to co-operate, on the ground that he (Swan) is the only person having authority in the City. It is dreaded, therefore, that there may be a conflict. We hope, however, that this measure taken to preserve order, may be effectual—and that every voter may be protected in his rights.

The Straightforward.

Forney's paper "The Press," claims that those who voted for Mr. Hazlhurst at the recent election are good Democrats at heart, and may be confidently counted on in all succeeding struggles.—This is letting the cat out of the bag, but what do our Straightforward friends hereabouts say to it?

The steamer *Pavia* arrived at New York on Wednesday, with Liverpool advices to the 17th ult. She brought out over a million of dollars in specie. There is a fearful panic in money affairs at Vienna, and also a financial crisis at London. The Banks of Holland and Belgium have advanced the rates of discount. There have been large arrivals of Australian gold at London.

The pressure at the Bank of England for discounts continued very heavy, but nevertheless the tone of the stock and money market is more favorable than at the departure of the Baltic.

The Indian mails have reached London.

The details of the news furnish nothing in addition to the telegraphic despatches. The accounts concur in pronouncing the prospects of the Europeans more cheering. The letters confidently express the opinion that the next mail will carry to England the news of the fall of Delhi.—The mutineers are represented as nearly exhausted and past leaving the city.

The Russian Naval Expedition for China had left Cronstadt.

The Paris correspondent of the *London Times* says:—"We understand that President Buchanan has addressed to all the American Ministers at Foreign Courts a confidential circular, declaring that the principles of the international law regarding neutrals shall be respected by the American Government; that any expeditions from the United States against countries with which they are at peace, shall be prevented by all legal means."

Counterfeit dimes are in circulation to a considerable extent. They are an excellent imitation of the genuine, containing the requisite ring and color. In the present scarcity of specie, look out for them.

The potato rot, it is said, prevails to an alarming extent in the southern part of New Jersey; in Cumberland, Salem and Gloucester counties, many of the farmers will not realize more than one-third of an ordinary crop, from the fields that a few weeks ago gave evidence of extraordinary yield.

Two Children Poisoned.—On Thursday afternoon, two children of John Cahill, of Jersey City, New Jersey, were taken with violent spasms from eating the seeds of the "Stramonium Datura," or Jamestown weed. The elder, a boy six years old, died the next morning, and the other, a little girl, aged four years, will, it is hoped, recover.

Returning Emigrants.—During the quarter which ended on the 30th of last September, there arrived at Liverpool from the United States 5,339 passengers, of whom 2,760 were returned emigrants.

A Balloon race for \$2,000 is said to be coming off at Buffalo, between two celebrated aeronauts.

Kansas.

Fraudulent Voting—Returns Thrown Out.

The latest information from Kansas states that Gov. WALKER has decided to reject the fraudulent votes returned in the Oxford precinct. This is a wise decision, and will do much to establish permanent peace and harmony in the Territory. The fraud was palpable; and any other decision on the part of the Governor, would have surely involved the Territory in another disastrous war. The rejection of the fraudulent votes gives both branches of the Legislature to the Free State men, notwithstanding the infamous Goryardward of the Territory. It is a great triumph to the Free State men, and, we presume, settles definitely the question of Freedom in Kansas.

In reference to the fraudulent votes, the *Kansas Herald of Freedom* says:—Gov. WALKER and Secretary STANTON were on Wednesday on their way to the border, to inquire in person in regard to the fraudulent election returns from the Oxford precinct, in Johnson county. They exhibit poll books, which are upwards of 40 feet in length. On inquiry they found, as they report, about 120 of the first votes polled, residents of the county; the balance of the names are unknown to anybody in the region, and are merely fictitious names, entered for the occasion.

St. Louis, Oct. 26.—A protest, signed by several prominent citizens of Kansas, was filed on the 12th instant, against the fraudulent returns from Oxford Precinct, Johnson county; and in reply to it, after a personal examination, Messrs. Walker and Stanton publish a proclamation in the *Herald of Freedom* of the 26th, in which they express a determination to reject the entire vote of Oxford, and to give certificates to the Free State Candidates.

The proclamation produced intense excitement among the pro-slavery men, and threats of vengeance against Gov. Walker and Secretary Stanton were made.

On the 19th instant a protest was made against assembling the Constitutional Convention by a Mass Convention of the people at Leocompton.

Worthy of Consideration.

The average annual imports of cotton and woolen manufactures are about fifty millions of dollars; the average annual imports of iron, manufactures of iron and steel are about twenty five millions of dollars; the average annual imports of manufactures of silk are about twenty five millions of dollars; total one hundred millions.

There is no actual necessity for importing a dollar's worth of cotton and woolen goods, because we manufacture them ourselves; and there is no actual necessity for importing a dollar's worth of iron, because we have enough of that in Pennsylvania, Maryland, and Virginia to supply not only ourselves, but the residue of the world; and there is no very pressing necessity to import so largely of manufactures of silk.

Without entering into arguments, it is merely suggested that if the imports of the articles under these three heads were reduced one-half—say fifty millions of dollars—there would be no occasion for panics and financial revolutions. Exporting fifty millions of dollars in gold per annum is a serious matter to any country: we can stand most things, but not that long. Importing fifty millions of gold annually is quite another affair, and this or any other country can stand that in the end of time, as under it there would be no panics and revolutions.—*Nat. Intel.*

The Land Speculators.

An article in the *Chicago Tribune* informs us that sheels of people from New England and the Middle States are traveling westward to look after the farm lands and building lots in which they invested so much money last summer and spring, at a time of great inflation, or upon the security of which they lent money to Western men. The Tribune adds that these investments are hopeless now, and will be so for years to come. But this probably depends upon whether the holders of such lands and lots continue to expect good prices. The article we quote from says that the amount of land now for sale is immense, in fact out of all proportion to the demand at present, or any prospective demand for the next ten years.

The Union.—It is very probable that early in the approaching session of Congress three new States will apply to be admitted into the Union, and become co-equal and co-ordinate members of our great Confederacy. The aspirants for this honor are the Territories of OREGON, MINNESOTA, and KANSAS. Of these, Minnesota alone has finally adopted a Constitution—the Conventions of the other two being now at work framing their fundamental law.—Thus the number of the United States will be thirty-four.

The Late Storm.

Vegetals Wrecked and Livers Lost.—The late storm raged very furiously on the Atlantic coast and on the Lakes, and a number of vessels were wrecked and lives lost. The bark *Warden*, of Boston, was wrecked near Bideford, on the Staunton or Brunton Sands, about two miles off the land.—The captain and three men were washed on shore, on portions of the wreck, but seven of the crew were unfortunately drowned.

The steamer *Behndor* was wrecked in Lake Michigan, and twenty-one lives were lost. Two only of the crew were saved.

Shooting Affair at Chambersburg.

We learn from the *Spirit*, that on Tuesday last, Mr. ISAAC CRAIG, of Pittsburg, was severely wounded, at the Cumberland Valley depot, by JOSEPH M'KIBBIN, member of Congress from California, and R. P. M'KIBBIN, a law student in Chambersburg.

Some years ago Mr. Craig married a sister of the M'Kibbins, but from alleged misconduct, she left him and returned to her father, with her children, who for some time past has been living a short distance from Chambersburg. Mr. Craig who still resides in Pittsburg, was passing through Chambersburg, and the grandfather of the children, Chambers M'Kibbin, Esq., sent the children to town to see their father, with whom they spent a happy hour. Mr. M'Kibbin knowing the hostile feelings of his sons towards Mr. Craig, and fearing a difficulty, also went to town, to prevent a collision, but his efforts were disregarded.

Mr. Craig, after taking an affectionate leave of his children, whom Mr. M'Kibbin had kindly sent in to see him, proceeded directly to the Railroad station, and took his seat in the afternoon train, which was then about to depart. Here his enraged brother-in-law presented himself, and fired at him no less than eleven shots, two of which took effect in the lower part of his body, causing severe but perhaps not mortal wounds.

There were five or six passengers in the cars and a number of persons standing around. Some narrowly escaped being shot, and one or two of the passengers were injured by jumping out of the windows of the cars, to escape the flying balls. Mr. Craig was armed and fired several shots at his assailants.

The feeling against the M'Kibbins is strong. They have been held in \$800 each to answer the charge preferred against them.

Mr. Craig—Accounts from Shippenburg by the noon train of cars to-day represents Mr. Craig who was shot by the brothers M'Kibbin, at Chambersburg, on Tuesday, as being confined to his bed.—The second pistol ball received by him in the groin still eludes the search of the physicians, although nothing serious is apprehended from this fact. The strongest hopes are entertained of his recovery. His wife and father in law, the elder M'Kibbin, visited him yesterday, and are profuse in their attentions to him.—*Nat. Tel. Oct. 26.*

Swift Retribution.—On the Friday evening train of cars, which arrived at Chambersburg from Harrisburg, at 4 o'clock 30 minutes, among the passengers was a young man, of about 20 or 30 years of age, gentlemanly dressed, who proceeded up town and took lodging at Mr. Fisher's Hotel, giving his name as George Bradley. After having his room pointed out, he left the house apparently for the purpose of taking a look at the town. While thus engaged he took the liberty of entering various private houses and a jewelry establishment, where he stole a number of silver and gold watches, for which theft he was arrested on the Monday following. The Court having commenced its session that day, the prisoner was arraigned for trial, and after a full hearing, was convicted, and sentenced to 21 months confinement in the Eastern Penitentiary. The aggregate value of the watches stolen was \$385. They evidently do things on the high pressure system in Franklin county.

The Constitution of Oregon.

The Constitution likely, according to the last accounts, to be adopted by the Oregon Convention, contains some remarkable provisions. It does away with grand juries as unnecessary—the preliminary examination before a magistrate previous to commitment being deemed sufficient. It provides that there shall be no Lieutenant Governor; that the Secretary of State shall exercise the functions of Governor pro tem. in case of the death of that functionary; and that the Governor shall also be Treasurer of the State. The number of members of the State Senate is limited to fifteen, and that of the Assembly to thirty, with biennial sessions. The ballot is abolished at elections, and *vote* voting substituted. Judges are declared ineligible for any office not judicial, during the period for which they are elected, and for one year after; municipalities are absolutely prohibited from contracting debts; and bank charters of every description are forbidden. With regard to the question of slavery, it is believed that two clauses, one legislating and the other prohibiting slavery, will be appended to the draft of the Constitution, to be adopted or rejected by a subsequent vote of the people.—*Journal of Commerce.*

Letter from Salt Lake.—Attitude of Brigham Young.—A correspondent of the St. Louis Republican mentions having recently seen Capt. Van Vallet, confidential agent of the government, at Palmetto, Kansas, who was returning from Salt Lake. He reported that the Mormons refuse to allow the United States troops to enter the city, and that Brigham Young publicly declares that he will burn the prairie, thus depriving the animals of the expedition of subsistence, and burn his own city, if necessary, before he will submit to the demands of the United States Government. The facts along the route are represented to be in bad repair, and as not affording sufficient protection to the troops.

A Remarkable Case.

A correspondent of the Albany Evening Journal gives the particulars of a visit to Mrs. Hays, of Horicon, Warren county, N. Y., who is known in that region as "the woman that lives without eating." The woman, it appears, is in a diseased condition, subject to almost continuous spasms of great violence, and from the description given, of the most heart-rending character to witness. The writer says:

"She has had long-continued spells of raising her body up, then throwing herself back so as to strike the top of her head upon the bed—thus bringing her feet and face so near together as to form a semi-circle with her body. Sometimes her head has been thrown back so that the line of her face would be reversed and would rest upon the pillow. Then she would straighten out again, and there would be the most terrible agitation of her whole frame—a violent quiver—a rapid spasmodic action of every nerve and muscle, with strangling and gasping for breath, like a person in the last agonies of death. This straining and gasping is in consequence of suspended respiration during the period her head is so forcibly drawn back. At one time she remained in that position twenty minutes—twelve minutes was the longest while I was with her. I applied a looking-glass to her face as a test, but could see no evidence of her breathing. She does not now usually remain in those peculiar spasms longer than from three to five minutes. During the space of three weeks they estimated that she went through with these motions at least once a minute on an average. The statements that they gave me would make much more than that. One day, on which they kept count, there were not less than three thousand five hundred of these spasms."

"The last particle of food taken into the room will produce violent heaving and retching. I simply handed bread, and then went near the bed, and it produced heaving which was alarming. I sprinkled an insupportable and almost imperceptible powder of saccharum lactis upon her tongue, and it produced violent heaving, which lasted over an hour."

"The writer says that he has convincing proof that this woman has neither eaten nor drunk from about the 20th of February last to Sept. 11, when he saw her; and she has not eaten more than a healthy person would eat at a single meal, since the 28th of June, 1855."

Recreation in Labor.—A New York paper gives us an account of the blending of amusement and instruction with labor, which is both novel and very commendable. One of the best known woolen weavers, who employs a large number of artists in his line of business, also employs a person to read to them while they are engaged on their various blocks. The programme is, first to read the newspapers; then the current literature of the day; after which the standard works are in order. It is stated the plan is not alone "benevolent" but economical. Mr. Orr finds that the salary paid his reader is more than returned to him in the increased quantities as well as superior quality of the work. It further puts an end to idle and fruitless discussions, which the New York paper very philosophically says, "so often leads to quarrelling."

The October Snow Storm.—The occurrence of a violent snow storm in October is unusual in this climate. We have already reported that in several sections of the country snow has fallen. A letter dated Herkimer county, New York, Oct. 21st, says:

"We had a furious snow storm in this county yesterday afternoon. Many of the winter apples (a light crop) are unthatched, and the strong wind shook off huskies of them down into the snow. Black wheat (a great crop) is standing and in the sheaf, and down in the shock. Grapes are on the vines, and scarcely ripe. The thermometer stood at the freezing point all the evening, and two degrees below at 6 o'clock this morning. The grape leaves are not stiffened. It is snowing moderately again this morning."

Paying Small Debts Illustrated.—A Frederickburg merchant went to Caroline Court on a certain occasion with a \$100 note of a certain denomination. Shortly after he got on the green he paid it over to a farmer. The farmer soon discharged an indebtedness to some one else, and thus the note kept on its mission of liquidation until near the level of the evening, when it was again paid back to the same merchant who took it there, and has brought it back to Frederickburg. Having the curiosity to trace its workings, he found that \$1,000 worth of debts had been paid by that \$100 note on a single day!—*Frederickburg Herald.*

Housekeeping in Runners.—A Kansas letter says there is a great scarcity of servant girls in the territory, and wages are very high, while the matrimonial market is still more active, and female domestic readily obtain "situations" where there are but two in the family. A married lady can hardly keep a servant more than a month or two, before there is an announcement that a wedding is to come off, and her servant is to be the bride.

The Stomach Adversely Affected.—It is certainly with pleasure that we announce the probable fact that P. T. Baroum is again "on his legs," that he is today a richer man than he was before his connection with the Jerome Clock Company. It is said that he has bought all the claims against himself for from five to twenty-five cents on the dollar, with the exception of some \$15,000 held in and about Danbury. The whole of the vast property assigned by him for the benefit of his creditors has again passed into his hands, and he is now re-possessing and re-entailing "Franklin" in good style for his future permanent residence."

Breeding Horse Race.—A trotting race, of 25 miles, came off on Friday last, at Bridgeport, Conn., between the Dalton horse and the Taylor horse, which was won by the former—performing the distance in 1 hour, 32 minutes and 80 seconds. The authorities of the city advised Messrs. Dalton and Taylor to make oath that they had not and would not bet on the result, before they would permit the race to come off. The horses kept close together throughout the race.

Bocon Going Backward Forward.

The Cincinnati Commercial treats us to the following commercial item—an interesting one, in view of the present state of commerce between England and America:

"Bocon was in active demand at Liverpool, and had advanced 1 per cent. This was consequent upon the heavy shipments made back to New York, reaching in all 9,000 boxes, and the article is now selling in New York at 9.94, rendering the reshipment from Liverpool a bad adventure after all; and we understand from a gentleman just from Liverpool, that 2,000 boxes which had arrived at New York per steamer Edinburgh, would not be discharged, but will be taken back on the same steamer to Liverpool! We should call this seeking a market under difficulties in a somewhat emphatic manner. Let us look at it a moment. The boom, in the first place, was shipped to Liverpool from this country last spring, remained there all summer seeking a market, but not finding a buyer, came back to New York with the hope of finding a market there, but being again disappointed, is about being conveyed back to Liverpool again, in hopes of finding a market there this time."

Afflictive Events.—The family of Mr. Pringle Stevens, residing in New Fairfield, Conn., has recently been, and what is left of it still is, the scene of the deepest sorrow and affliction. Not long ago the wife and only son of Mr. S. visited the West, and stopping in New York on their return the son took the small pox, and died last Sunday. On Monday Mr. Stevens assisted his hired man in burying his son on his own premises. On Tuesday the mother of the boy, a daughter, niece, and in all probability Mr. Stevens himself, were attacked with varioloid. During the evening of the same day Mr. S. overcame by this disease and melancholy circumstances which he was surrounded, faint and feeble to the door. Recovering from his swoon, or retreating to consciousness, he retired, but was again at two o'clock yesterday morning and left the house. About six o'clock his body was discovered suspended by a rope from the neck, under the eave of his barn-door, and all signs of life had departed.—*Danbury Times, Saturday.*

Distressing Incident.—Last week, a son of Col. Joseph J. Winter, of this county, returned from Kansas after an absence of some three years, we believe. His appearance had so changed that even his friends did not recognize him when he entered the paternal mansion. After the son had made himself known, the father stepped to the door of an adjoining room, and calling to two of his daughters, informed them that a gentleman desired to see them. Upon entering the room, the young ladies did not at first recognize their brother; but almost instantly, the eldest, named Cecilia, recognized him and sunk instantly to the floor, dead. Being somewhat delicate, the joyous surprise of this unexpectedly seeing her long absent brother, to whom she was deeply attached, was too much, and her gentle spirit took flight to realms where her happiness will endure forever.—*Clarkburg (Va.) Register.*

National Chess Congress.—During the session of this Congress, in New York, Mr. Paulsen played blindfolded. He first played four games in this manner, two of which he won; and last week he undertook to play five. The games were finished on Thursday night. Four of his adversaries resigned on nearlv checkmated, while the fifth game resulted in a draw. This is by far the greatest feat ever accomplished in chess playing, and evinces on the part of Mr. Paulsen a remarkable power of concentration of thought. He is quite young, being only 24 years of age.

BUFFALO, Oct. 23.—A distinct shock of earthquake was felt throughout this city a quarter past 3 o'clock this afternoon. The people were frightened and rushed out of the buildings. No damage was done.

THE HIG SAFE.—Measuring 34 feet high by 44 feet wide, and weighing 3,300 pounds, has been attracting much attention at the office of the *Panorama and Mechanical Inventions* in the West corner of Public Square. Every body nearly in town has been to see it. Our friends from the country have been, and are still, dropping in to see this the largest safe brought into the County.

This safe furnishes another ground for confidence to depositors. The security for the deposits they make of the same character and as extensive as that afforded by a Bank to its depositors—the stockholder in the one and the other being in the same manner liable. The safe keeping of the money and the security in depositing there affords a double safeguard to those thinking of depositing their money where, instead of lying idle, they will produce interest in the Savings Institution.

The Rev. G. S. BURNETT, who is laboring as a Missionary in Southern Asia, discovered a simple and certain Cure for Consumption, Asthma, Bronchitis, Coughs, Hoarseness, Debility, and all impairments of the Lungs; also, an easy and effectual mode of inducing the Remedy. Accented by science to benefit his suffering fellow-men, he will cheerfully send the Recipe (free) to such as desire it, with full and explicit directions for preparing and successfully using the medicine.

Arg Red to Navy Broker.

The device of the banks in the West to save space the commodity so scarce with them, are original to say the least of them:

The Springfield (Ohio) Nonpareil says the citizens of that town last week adopted a new plan for protecting their banks from being run by the brokers. Learning that a broker had reached town from a neighboring city to run the bank for coin, they promptly placed on one side of the bank entrance a bucket of tar and a brush, and upstair opposite a long, rough-looking fence, bearing this inscription: "Navy red" navy broker." As the broker approached the bank he read the inscription, glanced at the tar bucket and retreated.—*Thank went on as usual.*

Remarkable Case.—A marriage took place in Fairfax county, on Saturday last, of people who were divorced nine years ago. In the mean time the man has been married and his wife died, and on Saturday he was again married to his former wife.

Grapes are becoming quite an article of agriculture in Monroe county, Ill. It is estimated that the citizens of that county will market 150,000 gallons of wine, which at present rates will amount to \$200,000.

Two brothers, named Smith, proprietors of a splendid peach orchard near Sacramento, California, are said to have received between \$60,000 and \$70,000 this year from the sale of peaches.

Married.

On Wednesday morning last, Rev. Mr. Van Wyck, Rev. LEWIS HIPPEE, of White Marsh, Pa., to Miss LOUISA MCLELLAN, of this place.

On the 16th ult., in Abbotstown, by the Rev. Mr. Hoffmeier, Mr. LEWIS PRYNN, of Hanover, to Miss ANNA MARIA SWORE, of New Castle, Adams county.

On the 20th ult., by the Rev. Mr. J. Allen, Mr. BARNETT KOONS, of Frederick county, Md., to Miss MARY WOLFORD, of Adams county.

On the 21st ult., by the same, Mr. WILLIAM H. HEBERT, to Miss ANN MARGARET WILHELM—all of this county.

On Tuesday last, near Fairfield, by the Rev. J. Bowen, Mr. WESLEY J. IVER, to Miss DELIAH MCLELLAN—both of this county.

Died.

On Monday last, Mr. SAMUEL HUNTER, of this place, aged about 70 years.

On the 9th ult., of Typhoid fever, in Newton, Jasper county, Ill., Mr. JAMES LYN, formerly of this county.

Thanksgiving Proclamation.

PENNSYLVANIA, SS:
In the name and by the authority of the Commonwealth of Pennsylvania, JAMES POLLOCK, Governor of the said Commonwealth.

A PROCLAMATION.

Fellow Citizens:—To render to Almighty God, who controls the destinies of nations and men, the homage of devout gratitude and praise for His goodness and mercy, is the appropriate and solemn duty of a free and highly favored people. As the Giver of every good and perfect gift we should ever recognize His hand in our mercies, and acknowledge our dependence upon His providence; and although adversity may throw its dark shadows across our pathway, yet we should be assured of this: "The Judge of all, the earth will do right."

During the past year the bounties of a kind Providence have not been withheld from our Commonwealth. Our free institutions have been preserved, and our rights and privileges, civil and religious, enjoyed and maintained. The arts and sciences, and the great interests of education, morality and religion, have claimed the attention and received the encouragement of an intelligent and liberal people. Honorable industry in its varied departments has been rewarded, and although recent and severe financial reversals have filled with gloom, sorrow and distress, the hearts and homes of many of our citizens, yet so far of fortune, no dread of impending public or social calamity, unmingled with our emotions of gratitude for past blessings, or weakness of trust for the future, in the providence of Him who wounds but to heal, and "whose mercy endureth forever." A plentiful harvest has crowned the labor of the husbandman—peace, with its gentle and reforming influence, and unwonted health with its benefits and mercies, have been vouchsafed to us.

In acknowledgment of these manifold blessings, we should offer unto God thanksgiving and pay our vows unto the most High; and call upon Him "on the day of trouble"; He will deliver thee and thou shalt glorify Him."

Under the solemn conviction of the propriety of this duty, and in conformity with established custom and the wishes of many good citizens, I, JAMES POLLOCK, Governor of the Commonwealth of Pennsylvania, do hereby recommend Thursday, the Twenty-sixth day of November next, as a day of thanksgiving and praise throughout this State, and earnestly request the people that, abstaining from their usual avocations and all worldly pursuits, they assemble on that day, according to their religious customs, to unite in offering thanks to Almighty God for His past goodness and mercies; and while humbly acknowledging our transgression, and imploring His forgiveness, beseech Him, with sincere and earnest desire, to return and visit us again with His loving kindness, "make us worthy of His bounties, and continue to us the rich blessings of His providence and grace."

Given under my hand and the Great Seal of the State at Harrisburg, this nineteenth day of October, in the nineteenth year of our Lord one thousand eight hundred and fifty-seven, and of the Commonwealth the eighty-second.

By the Governor, JOHN M. SULLIVAN,
Deputy Secretary of the Commonwealth.
